Recorded and mixed in January 2008 in Pula, at the studio
«Partyzan».

Hijos del Pueblo je muzičko-politički projekt crust-grind zvuka. Kojeg sačinjavaju; Luže (Homo Homini Lupus) na bubnjevima, Anel (Frekvencija) na gitari, Mičo (Nulla Osta) na basu i Eugen kao vokal. Zamisao tog projekta rodila se kao ideja o osnivanju banda (10.01.2007) kojemu je namijenjena uloga instrumenta anarhističke/socijalno angažirane propagande. Daleko od slijepog shvaćanja i prihvaćanja ideologija, propitujući vlastite želje i stavove...

Sviramo za Vas, putne troškove i domaćine koji će se brinuti o nama. Sav novac koji nam odlučite dati viška, usmjeravamo natrag u DIY scenu kroz našu kreativnost na istoj...

Hijos del Pueblo is a musical/political project with crust-grind sound. It's formed by Luze (Homo Homini Lupus) on drums, Anel (Frekvencija) on guitar, Micho (Nulla Osta) on bass and Eugen on vocals. This project was born as an idea of creating a band who have the role to be an instrument of anarcho/social propaganda. Far from the blind comprehension and embracing ideologys, seeking through our own wishes and attitude.

We're gonna play for You, for mileage and for the hosts which will take care of us... The whole extra money that we got from You will be pointed back to the DIY scene through our creativity...

Uvod u anti-autoritarnu pjesmaricu:

Pred tobom se nalazi knjižica koja sadržava tekstove pjesama muzičko-političkog projekta «Hijos del Pueblo» /ihos del pueblo/ (sinovi naroda).

Uz tekstove pjesama priloženi su i komentari na iste te tekstove s namjerom da što detaljnije i jasnije objasnimo i obrazložimo naše stavove.

Ovu cjelinu odlučili smo nazvati «Konstantni rat». Zašto? Fasciniranost nasiljem, oružjem? Nikako.

«To će biti posljednji i odlučni teški boj,
Internacionala nek' bude ljudski rod!»

Konstantni rat jer smatramo da nema kraja borbi protiv predrasuda i neznanja. Ne mislimo da će rušenje kapitalizma i države biti posljednji boj. To će biti tek prvi teški boj ali nikako i posljednji. Uvijek može biti bolje i ništa nije toliko sveto da ne može biti kritizirano. Zbog toga «konstantni rat», u tvojoj glavi uvijek ima granica za rušiti, predrasuda za preispitati, neznanja za osvijetliti...

I zato, ugasimo mrak!

01. MOJE TIJELO

Odredi morala govore ti
kako živjeti!

Umjetna oplodnja, masturbacija,
abortus, eutanazija.

Ateizam, homoseksualnost,
vanbračna zajednica,
seksualni odnos.

To je moje tijelo,
sloboda moga izbora!
To je moj život i ja ga živim!

Tebe ne ugrožavam
nositelju morala!
Tebe ne ugrožavam
sa svojim postupcima!

Odredi morala govore ti
kako živjeti!

Umjetna oplodnja, masturbacija,
abortus, eutanazija.

Ateizam, homoseksualnost,
vanbračna zajednica,
seksualni odnos.

To je moje tijelo, sloboda moga izbora!
To je moj život i ja ga živim!

Nema slobode bez odgovornosti, jednako tako nema ni odgovornosti bez slobode. Moj život je moj izbor, moje tijelo je moj sigurni kutak. Osluškujem ga, čuvam, gradim i jačam. Ti i ja imamo legitimno pravo na slobodno raspolaganje svojim tijelom i duhom. Mi kao anarhisti ne priznajemo seksualno ni emocionalno vlasništvo jedne osobe nad drugom, a samim time ni vlasništvo crkve, države i društva nad pojedincem, te pojedinca nad društvom.

Za slobodnu ljubav!

Za slobodnog čovjeka čija se sloboda ogleda u slobodi drugoga i slobodi zajednice...

02. PROGRAMIRANJE

Svaki trenutak tvog malenog života,
Svaki tvoj udah pomno je planiran!

Zaslijepljen od medija kreiraš sliku svijeta,
Potpuno apatičan, dio sistema!

Njihov si projekt i oni ti pokazuju,
Kako odgajat djecu u kojeg «boga» vjerovati!

Zdrava obitelj stvara debilne pojedince,
a sve to zajedno čini ovo društvo!

Cjelovita indoktrinacija u ime očuvanja poretka!
Sustavna kontrola želja, misli, potreba!

Njihov si projekt i oni ti usađuju
Hormon sintetske sreće!
Njihov si projekt i oni ti usađuju
Stabilnost vjerovanja!

Programiran! Poslušna jedinka!
Programiran! «Društveno» koristan!
Programiran! Bez preispitivanja!

Živimo u svijetu gdje pravila određuju oni za koje radimo. Kod istih tih primorani smo kupovati. Na njihovoj su strani religija, tradicija, nacionalizam izmjenjujući se ovisno o potrebama sa konzumerizmom, reklamama, medijima (jer i nacionalizam, religija zastarijevaju kao načini kontroliranja, potrebno im je nešto novo, djelotvornije). Rađamo se u zonama. Odgojeni kako bi vjerovali da smo sretnici što smo se baš «ovdje» rodili. Ovisno o zemljopisnom položaju dobivamo svoga «boga» da mu se klanjamo, prinosimo žrtve i stavljamo svoj život u njegove ruke. Od samog djetinjstva prolazimo filtre i indoktrinaciju, društvenu prilagodbu. Obitelj, vrtiće, male škole, osnovne škole, srednje škole, fakultete, vjerske zajednice, razna «nevladina» i vladina udruženja, i na kraju naše poslove, poslije kojih završimo u nekom od staračkih domova. U svemu tome pronađemo životnoga partnera koji nam nalikuje po položenoj dresuri i zajedno s njime radimo

nova mala bića, koja ćemo jednako podrediti sličnim dresurama, našim «bogovima» i sustavima vrijednosti.

Ne želim biti njihov projekt. Sva naša znanja i sva vjerovanja, vrijedna su propitivanja...jer su sistematski, kontinuirano i promišljeno ugrađivana.

Svrha cjelokupne indoktrinacije/društvene obrade čovjeka je navesti ga da voli svoju neizbježnu društvenu sudbinu. Tajna učinkovitosti sistema je u uspješnosti uvjeravanja da volimo ono što «moramo» raditi. Radeći za sistem sretni smo, uvjereni u svoju društvenu ulogu igramo po njihovim pravilima kako bi oni nastavili sa eksploatiranjem čovječanstva u zamjenu za profit i sve što on nosi sa sobom.

Današnji totalitarizam je daleko od vladanja batinama, jer se to pokazalo kao nedjelotvorno (to koriste sistemi koji još nisu usavršili umijeće kontrole), današnji totalitarizam je utemeljen na dobro proučenoj psihi čovjeka, njegovim fizičkim i mentalnim potrebama. Što će sistemu batina, oružje i strahopoštovanje ako mi robovi volimo svoje robovanje. Novi vojnici sistema su učitelji, odgajatelji, psiholozi, psihijatri, masmediji, reklame, promidžbe... Svjedok si novoga totalitarizma i svakim danom on se sve više usavršava.

Sjeti se svih reklama, usvajanje retorike, nametanje želja i potreba. Koliko puta na dan čuješ volim letjeti, voziti auto, jesti, piti. Volim utakmice, glazbu, volim, volim, volim... Želim, želim, želim... Volim svoju zemlju, volim svoje sportaše, želim kredit, želim novi auto, želim novi mobitel...Misli na svoj celulit, želim pušiti, želim piti piva u novim pakovanjima, volim kupovati, želim kupovati, kupnjom poklona pokazujem koliko nekoga volim. Savršeno oružje za ispiranje mozga, programiranje. Kombinacija konzumerizma, nacionalizma, religioznosti, domoljublja i sličnih manipulatorskih tvorevina čini te savršenom sirovinom za obradu, preradu, drugim riječima cjelovito programiranje.

A ja, ne želim biti njihov projekt...

03. KONSTANTNI RAT

U ovom svijetu bogova,
moći i apsurd,
Za mene nema mira
dok egzistiram!

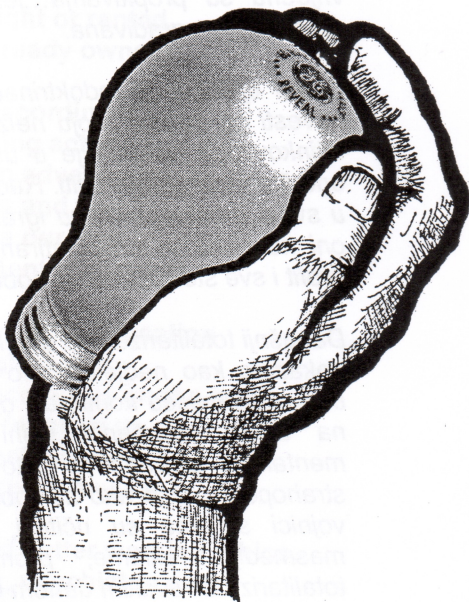

Hodajući među njima
njušim ponos i čast,
Za mene nema mira
nema mira!

Smrad koji se širi
je nesnosan!
Iluzija kontrole
daje im slast!
Bježim dok
probavljam bijes!
Razum urla i ja urlam!

Za mene nema mira
U ovom svijetu moći i
apsurda, nema mira!
Za mene nema mira
U ovom svijetu moći i apsurd,
Sve dok bivam!

Iza neprijateljskih linija,
u srcu čudovišta,
Nemam mira,
ne dam ga ni njima!

Razum urliče, urlam i ja
Ovo je krik, krik razuma!

04. BOLEST 21. VIJEKA

Tuga, sumnja, očaj, krivnja.
Depresija mi je prijatelj,
Koji me nikada nije cijenio!

Nemoć, pritisak, nervoza, frustracija.
Stres je slijepi putnik,
Zbog kojeg sve lađe tonu!

Ne osjećaš zadovoljstvo. Uplašen i usamljen.
Ruke skrivaju bolne grimase. Izlaza ne vidiš!

Čir na želudcu, još jedna sijeda dlaka.
Sutra isto sranje. Sve ispočetka.

Psihoterapija, antidepresivi?!
Tablete za spavanje ili smirenje?!

Prođe neko vrijeme, slijepi putnik vrati se.
Još jedno razočaranje!
Prođe neko vrijeme, slijepi putnik vrati se.
Još jedno razočaranje!
Stari «prijatelj» kuca na vrata!

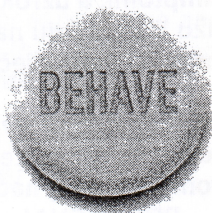

Psihoterapija, antidepresivi?!
Tablete za spavanje ili smirenje?!

Opet isti simptomi, a uzrok se ne dira.
Pomažu ili zarađuju na tebi?
Razmisli o ovim riječima!

Promjena! Tvoj život!
Promjena! Tvoje želje!
Promjena! Tvoj način!
PROMJENA!

Današnja situacija stvara od nas bolesnike, psihičke bolesnike kapitalizma. Ustani ujutro, idi na posao, trpi uvjete, ovisno o radnom mjestu, gdje je svakako važniji gazdin profit nego tvoja udobnost. Dođi doma upali TV, nešto pojedi, odmaraj se za sutra. I tako većinu svoga života. Kako ostati normalan? Kako imati osjećaj da tvoj život ima smisla, ako si samo kotačić u kapitalističkoj mašini profita, gdje radiš jer se bojiš gladi, što svoje, što svoje obitelji. Uzmi u obzir da većinu radnog vremena ne radiš za svoje potrebe i eventualno potrebe svoje djece, već za onu klasu iznad sebe (višak vrijednosti, profit). Od rada su napravili prokletstvo i muku, a rad je ono što nas čini ljudima. Ni jedan doktor ti neće reći: «prijatelju, živimo u bolesnom svijetu, gdje si ti kapitalistička sirovina, jedini lijek je radikalna socijalna promjena» ne, nikako, za svoje psihičke probleme dobiti ćeš odgovarajuću psihoterapiju, za fizičke također. To ćeš sve uredno platiti, pa sad ti razmisli o ovome, kako god okreneš oni zarađuju na tebi, zbog tebe...

I zato...samoedukacija, organizacija, emancipacija...

05. BITI ĆEMO MILIJUNI

Cijelo moje biće stremlji jednom cilju.
Koliko da gubio, ne prestajem se
Nadati, boriti, ne prestajem!

Zacrtna sudbina me užasava,
Nisam ničiji rob, u sistemu samo funkcija!

Svedena do ničavila, ljudska duša
Koprca se u blatu izdaja!

Cijeli ljudski rod u igri moćnika,
Sada je samo kapitalistička poluga!

Grize me iznutra, izjeda do kosti,
Njihova pakost, njihova pohlepa!

Cijelo moje biće stremlji jednom cilju.
Radikalna socijalna revolucija!

Koja je počela u srži razuma!
Koja je počela u nečijim mislima!

06. PROBLEMATIČNI ROBOVI

Ti si rob! Ja sam rob!
Nema sumnje! Nema sumnje!

Od kuda onda slobodoumni ljudi
Kao što smo ti i ja?

Jednostavno je! Oni nisu svemoćni
I pasti će u bijesu, bijesu ljudskog razuma!

Bijesu ljudskog razuma koji će preplaviti svijet
I biti ćemo slobodni!

Po čemu se razlikuje anarhistička (r)evolucija od drugih revolucija? Mi ne želimo osvojiti vlast i moć, ne želimo diktaturu, ne želimo državu i birokratsko posredništvo između ljudskih odnosa, ne želimo stare niti nove vođe, propovjednike. Ne želimo nacionalizam, klerikalizam, seksizam, rasizam i sve one ksenofobične i izopačene ideje koje odvlače čovjeka od uzroka problema i nude mu bijes i mržnju umjesto zdravog razuma i slobode. Ne želimo privatno vlasništvo, već osobno i društveno tj. vlasništvo kojim se slobodno koristi, a ne ga posjeduje. Ne želimo ljubav u okviru zakonskih obveza i tradicije, ne želimo institucije oboružane prisilom, ne želimo potlačene i eksploatore, ne želimo hijerarhiju i iracionalne autoritete. Želimo plod našega rada, želimo ravnopravnost, solidarnost i antiautoritarne odnose. Želimo brigu za djecu i sve one nesposobne za brigu o sebi. Želimo naobrazbu do najvišeg mogućeg stupnja za sve. Želimo ljubav umjesto mržnje, solidarnost i suradnju umjesto konkurencije, slobodu umjesto tlake i nameta. Želimo direktnu demokraciju, istinski besklasno, slobodno društvo. Želimo slobodne asocijacije radnika, kolektiva, komuna, ljudi. Samoupravne, decentralizirane, bioregijske (a ne izmišljene nacionalne granice) sustave. Želimo slobodne dogovore i ugovore umjesto zakona. Želimo pravo čovjeka i zajednice na samoodređenje.

Anarhistička (r)evolucija ne događa se preko noći, to je dugotrajan i permanentan proces izmjene međuljudskih odnosa. To nije smrt neistomišljenicima, buržoaziji, fašistima, već smrt izrabljivačkim i ugnjetavačkim odnosima.

Društvena revolucija, gdje su neprijatelji kapitalizam i država jednako kao i neznanje i predrasude.

Smrt laži i život slobodi u svojem najsjaajnijem obliku!
Živjela anarhistička (r)evolucija!

07. NIŠTA ZA IZGUBITI

**Tvoja apatija stvara ovaj grozni sistem!
Koja je isprika za tvoju sputanost?!**

**Strah od čega te drži
Da ponizno slušaš
Trpiš sranja?**

Koja Oni serviraju!

**Nemaš ništa za izgubiti,
Osim svojih okova!!!**

Tek kada shvatiš da sve što posjeduješ i sve što radiš graniči s apsurdom, tek tada ćeš vidjeti kako tvoja euforija nema veza sa zbiljom, već sa iluzijom. Što vrijedi tvoja moć, tvoje stvari i sve ostalo što posjeduješ ako ne upravljaš sobom i ako je tvoj um zatrovan. Što nam vrijedi sve ako živimo kao hipnotizirani, poredani kao programirani koračamo prema svojoj smrti, ređeci za druge, kupujući stvari koje nam ne trebaju i ne cijeneći apsolutno ništa doli moći i profita. Gazeći svaku nadu ne obazirući se na bol prirode, životinja i ljudi. Zaslijepljeni novcem gušimo se u okrutnosti, ne primjećujući apsolutno ništa osim sebe samih. Laž, prevara, obmana.

Pjesma je upućena svim umornim radnicima koji nemaju snage boriti se, za svoja prava. Ljudima koji se zbog straha priključuju većini i koji se prepuštaju premda znaju da to nije u redu. Upućena je svim neodlučnima i uplašenima koji misle da su sami u cijeloj ovoj pizdariji. Svim roditeljima koji stvaraju generacije i generacije djece koja su nezainteresirana za svoju okolinu. Svim posrnulima koji utjehu traže u ovisnostima. Upućena je učenicima kojima nije stalo do vlastitog znanja, učiteljima i profesorima koji uče djecu što misliti, umjesto kako misliti. Svim religioznima koji vjeruju jer se boje. Ljudima koji mrze jer ih je strah drugačijega, novoga. Meni koji gubim snagu i volju, jer ponekada ne nailazim na nikakvu podršku i toplu riječ. Vama koji razmišljate o odustajanju od svega jer je teško i dugotrajno...

*Odlučnost, strpljivost i samodisciplina.
Iskrenost prema drugima i još važnije, prema sebi...*

08. DRŽIŠ KLJUČEVE VLASTITIH OKOVA

Mi nismo roba, niti plaćenici.
Nismo proizvodi koji se prodaju.
Ne možemo biti kupljeni ili iznajmljeni,
već smo samo posjedovani!

Digitalni video zapisi?
Muka od gledanja glumaca,
Želimo vlastite avanture!
Političke stranke, zakonodavna rješenja?
Želimo iskustvo vlastite snage,
Predstavljanja sebe, sebe samih!

Reci da nam nedostaje još edukacije,
Smijati ćemo se znamo
Da na vrhu ne postoji
Dovoljno mjesta za sve nas,
U svakom slučaju, pitamo se
Želimo li uopće biti tamo?!?!

Kaži da nam treba bolja radna etika,
Savjetovanje o karijeri, psihijatrijska njega,
Recept za lijekove, možda veći odmor?

Znamo konačno, problem nije u nama!

Dosta nam je liječenja simptoma
I okrivljivanja žrtve
Uvijek nam kažete,
Ako izgubimo poslove, to će biti kraj svijeta!

Mi nismo roba, niti plaćenici.
Nismo proizvodi koji se prodaju.
Ne možemo biti kupljeni ili iznajmljeni,
već smo samo posjedovani!

Zamisli svijet u kojem imaš sposobnost pronaći sebe, svijet koji ti dopušta spoznati sebe samoga i samim time spoznati svijet. Imam osjećaj da zaboravljamo kako svijet nije tu radi nas, mi smo tu zahvaljujući njemu. Evolucija nas je dovela do sposobnosti mišljenja, zaključivanja, preispitivanja, oslanjanja na vlastiti razum, slobode izbora. A što smo mi iz svega toga izvukli? Najgore moguće sisteme i sustave. Robovlasništva i feudalizam, autoritarni socijalizam, državni komunizam, kapitalizam i neoliberalizam.

Kapitalistički sistem primorava ljude da interesno razmišljaju i samim time tako donose odluke. To nas čini neljudima i sve naše vrijednosti kao što su empatija, solidarnost, požrtvovnost poništava i svodi na jednu riječ – profit ili što je u slučaju radničke klase - egzistencija. Čitav niz individualnih sukoba pa sve do najstrahotnijeg sukoba zvanog rat. Sve strahote koje su ljudi spremni počiniti radi interesa, kapitalističkih interesa, interesa vladajuće klase i interesa nas malih crva koji pokušavamo preživjeti dan.

Na kraju se jedino možemo pitati; što nas to još čini ljudima? I koji je razlog našoj apatiji, dok gledamo kako profit i interes siluju našu majku Zemlju i ubijaju naše sestre i braću, djecu i roditelje...

Što nas to još čini ljudima?

09. DRŽAVNI SIGURNOSNI VENTIL

Nadobudni mladi odvjetnici,
entuzijasti komunisti
Ljudi koji misle da se može,
Promijeniti «stvar» iznutra!
Promijeniti «stvar» iznutra?

Kad bi sistem pružao
mogućnosti za promjenu
Ljudi bi odavno iskoristili situaciju
To je samo njihov sigurnosni ventil!
To je samo njihov sigurnosni ventil!

Za otpuštanje pritiska
Kada se ljudi previše razbude!

Svojim trudom i talentom podržavaš
svjetski poredak,
Isti onaj poredak kojem se protiviš!

Proširimo granice slobode i
prijateljstva,
Prostor u kojem se osjećamo ugodno!

Pokažimo model ponašanja
Ravnopravnost
Pokažimo model ponašanja
Prijateljstvo, Solidarnost, Horizontala,
Horizontala!

U biti to je jednostavno za objasniti, država/sistem ima svoje sigurnosne ventile, koji se aktiviraju kada ljudi pokušavaju promijeniti stanje stvari. Kažem vam, sasvim zgodne procedure, koje su prigodne za takve ljude, željne promjene putem sistema. Za buduće odvjetnike, sudce, policajce. Država se ne može promijeniti jer ona ne dopušta da se ljudi koriste njezinim metodama i zakonima u ime promjene. Tu je čitava konstrukcija odnosa, zar zbilja vjeruješ da je država samo institucija? Radi se o modelu ponašanja, modelu koji održava sistem živim. Na meni i tebi je da taj model promijenimo, horizontala umjesto hijerarhije, solidarnost umjesto ekonomskog natjecanja, traganje za svojim snovima umjesto uklapanja u društvene norme, prijateljstvo umjesto netrpeljivosti, direktna demokracija umjesto apatije i prepuštanja odluka nekome drugom. Kada prihvaćamo njihove igre, u samom startu gubimo, jer naše vrijednosti nisu ni blizu njihovima. Zato predlažem da njihove igre zamijenimo našima. Proširujući prostor gdje se možemo ponašati kao ravnopravna slobodna bića. Raditi iznutra, u ime promjene? Ne!

«Naši osobni odnosi sa ljudima reproduciraju istu hijerarhiju protiv koje se borimo u društvu. Nećemo ništa zaista promijeniti ako ne stvorimo nove načine življenja i odnosa prema drugima, nove vrijednosti koje se očituju u načinu na koji se međusobno tretiramo.» Raditi iznutra? NE!

Naučeni iskustvom i gledajući na prošlost, možemo se složiti da sistemu nije potreban popravak/reforma, već korjenita promjena (jer stvari su već odavno sasvim krivo postavljene). Raditi iznutra, u ime promjene?! NE!!

10. MIZANTROPIJA

**Cijeli svijet je zatvor, zatvor bez rešetaka!
Gdje god da krenem pritisak je neizdržljiv!**

**Osjećaj ropstva premda si «slobodan»,
Osjećaj gladi unatoč sitosti!**

**Cijeli svijet je zatvor, zatvor bez rešetaka!
Koji ima odraz ljudskoga lica!!!**

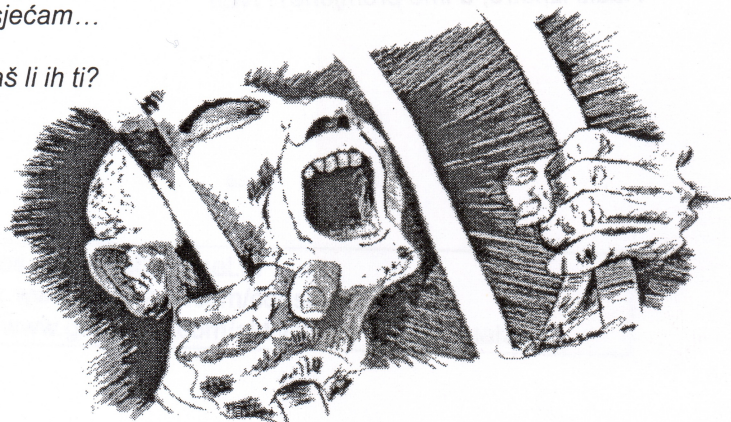

Prvi puta vidim da sam okovan, cijelo moje tijelo je pod pritiskom. Moje misli su sputane, ne vidim jasno svoje želje i osjećaje. Jedino što sada sigurno znam je to da sam zarobljen.... Reguliran, zatucavan, kontroliran, podčinjen, praćen, nadziran, registriran, prebrojen, ovjeren, svrstan, izmjeren, eksploatiran, dresiran, opljačkan. Sve to u ime plana, krvavog klasnog plana, kako bi elitna manjina bogovski živjela. Kontrolirala svjetske prihode, informacije, kapital, drugim riječima cijeli svijet.

*Prvi korak je
napravljen, svjestan sam.....*

Sada kada vidim, kada znam, oči mogu zatvoriti, ali i dalje osjećam. Osjećam ih u sebi, kako ruju putove mojim mislima. Njihov bijes kao reakcija na saznanje, spoznaju. Znam da nisam sam, i oni to znaju.

*Bliži se kraj, njihov ili naš.
Drugačijeg ishoda nema.
Jer ih osjećam...*

A osjećaš li ih ti?

Za kraj:

Tvoja sloboda volje je tvoja autonomija, ti si stvaralačko, aktivno i odgovorno biće. Ono što te dijeli od ostatka svijeta je tvoja sposobnost izabiranja; neslobode i slobode. Što sam sebi danas izabireš? Kreativni stvaralački rad ili najamni rad u službi robovanja nekome ili nečemu? Slobodu i odgovornost ili izbjegavaš kritičko mišljenje i pasivno prihvaćaš postojeće?

Tvoj bijeg od slobode tvoje je samouništenje, tvoja neodgovornost i prepuštanje svih važnih životnih odluka nekome ili nečemu je put prema otuđenosti od samoga sebe i proizvoda vlastite kreativnosti, otuđenje od drugog čovjeka, i na kraju od same prirode.

Čovjek je čovjek dok je slobodan!

A što si danas?!

Kapitalistička sirovina u klasno podijeljenom svijetu, gdje si TI ništa drugo nego li instrument, oruđe, brojka na papiru, statistika!

Nemoj sebi i drugima mazati oči, da je danas baš ovako jer nema drugog izbora. Ti si sam svoje vlastito djelo i nema tog boga i države koje to može opovrgnuti, a da pritom ti ne sudjeluješ u vlastitom uništenju i otuđenju.

Da, tvoja odgovornost je golema i blesavo je, na to zatvoriti oči....

Što sam sebi danas izabireš?

Introduction to anti-authoritarian song-book:

You are holding the booklet which contains lyrics of the songs performed by musical-political project called Hijos del Pueblo (Ihos del Pueblo) – The Sons Of The People.

Beside lyrics here you can also find comments intending to explain them and make our views more clear.

We decided to call this unit «The Constant War». Why? Fascination with violence and weapons? No way.

«And the last fight let us face
The Internationale unites the human race.»

«The Constant War» because we think there is no end in fighting prejudice and ignorance. The demise of capitalism and state won't be the last battle. It will be the first one. Everything can be better and anything not good enough must be criticized. That's why «The Constant War». There will always be borders you must fight against, prejudices to question and ignorance to illuminate...

That's why, let's turn off the dark!

01. MY BODY

The brigades of morality
tell you how to live!

Artificial insemination,
masturbation, abortus, euthanasia
Atheism, homosexuality,
extramarital union, sexual
intercourse...

That's my body, the freedom of
choice! That's my life and I live it!

I don't endanger you,
You holder of morality,
I don't endanger you
With my activities.

The brigades of morality tell you
how to live!

Artificial insemination,
masturbation, abortus, euthanasia
Atheism, homosexuality,
extramarital union,
sexual intercourse...

That's my body,
the freedom of choice!
That's my life and I live it!

There is no freedom without responsibility and vice versa. My life is my choice, my body is my safe place. I listen to it, take care of it, build it and make it stronger. You and me have every right to use our bodies and souls freely. As anarchists, we don't recognize sexual and emotional possession of one person over another one as well as possession of church, state or society over an individual or of an individual over society.

For free love,

For free men whose freedom can be seen through freedom of others and freedom of society...

02. PROGRAMMED

**Every moment of your little life,
Every breath you take is well programmed!**

**Blinded by media you create the picture of the world,
Totally indifferent, part of the system!**

**You are their project and they show you
How to raise children and what god you must worship!**

**Healthy family produces sick individuals
And all these things make this society!**

**Total indoctrination in the name of preserving world order
Total control of your dreams, thoughts, needs**

**You are their project and they inject you
With hormones of synthetic happiness!
You are their project and they fill you
With undoubtful trust!**

**Programmed! Obeying individual!
Programmed! Useful for society!
Programmed! No questions asked!**

We are living in the world where rules are made by those we are working for. We are buying things from them too. They have religion, tradition and nationalism on their side changing places regarding the needs for consumerism, advertisement, media (nationalism and religion are no longer efficient as models of control, we need something new more efficient). We are born in certain parts of the world and raised to believe we are lucky to be born exactly where we did. Depending on where we were born we get a certain god to bow to, bring the sacrifice to him and put our own lives in his hands. Since childhood we are going through all sorts of indoctrination and social adjustment. In the family, nurseries, elementary and high schools, universities, religion communities, all sorts of government and non-government associations and on our jobs after which we end up in some old people's home. In that period we find partner equal to ourselves in the way society

trained him and together we make children who will receive the same training as we did, who will have the same gods and system of values.

I don't want to be their project. All our knowledge and our beliefs must be questioned... because they've been systematically and well intended built in our conscience.

The point of this overall indoctrination or social brainwashing is to get people to practically like their unavoidable social destiny. The secret of efficiency of every system is in how good it is in convincing people they love what they are obligated to do. While working for system we are happy, convinced in our social role, we live by their rules while they continue to exploit the mankind, making profit.

Today's totalitarianism is far away from aggressive ruling 'cause it proved to be unefficient (it is still used in the systems which haven't learned the art of control). It is based on human mentality, it's physical and psychical needs. The system doesn't need force, weapons or reverence if us slaves like our situation. New soldiers of the system are: teachers, pedagogues, psychologists, psychiatrists, mass-media, commercials... We are witnessing new totalitarianism which improves every day.

Remember all the commercials, ideas, dreams and needs put into you. How many times a day you hear I like to fly, to drive a car, to eat, to drink. I like football games, music, I like, I like, I like... I want, I want, I want... I love my country, I love sportsmen, I want a loan, I want a new car, I want a new cell phone... Think about cellulite you've got, I want to smoke, I want to drink that new beer, I like to shop, I want to shop, by buying them gifts I show people how much I love them. It's perfect weapon for brainwashing and programming. A combination of consumerism, nationalism and religion, patriotism and similar manipulating models is what they use to make you perfect raw material to be carved and programmed.

And me, I don't want to be their project.

03. THE CONSTANT WAR

In this world of gods,
power and absurdity
There is no peace for me

Walking among them I
smell pride and honour
No peace for me,
no peace!

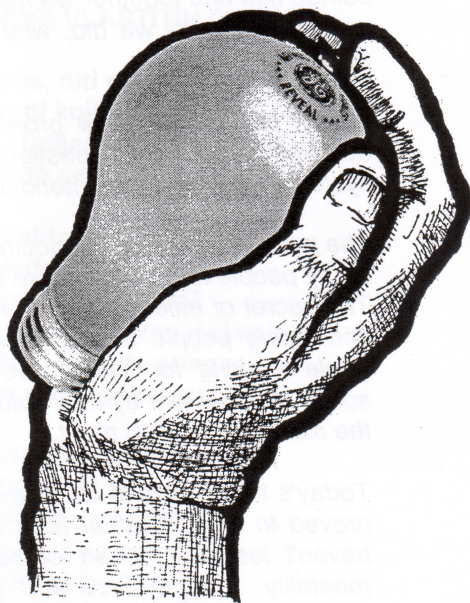

The stink spreading
around is insufferable
The illusion of control
gives them pleasure!

I run away
I swallow my rage
My mind is raging
and I scream!

No peace for me
In this world of power
and absurdity, no peace!
No peace for me
In this world of power
and absurdity, until I live!

Behind enemy lines,
in the heart of the beast
I've got no peace,
but they won't have it either!

My mind is raging
and I scream
This is the scream,
the scream of reason!

04. THE SICKNESS OF 21st CENTURY

Sorrow, doubt, despair, guilt,
Depression is my friend,
Who never appreciated me!

Helplessness, pressure, nervousness, frustration,
Stress is the blind passenger
which makes all boats sink!

You don't feel pleasure.
You are frightened and lonely.
Your hands are hiding the pain on your face.
You don't see the way out!

Gastric ulcer, another grey hair
Tomorrow the same old shit.
Everything from the start.

Psychotherapy, anti-depressives?
Sleeping pills or tranquilizers!?

After some time your blind passenger is back...
Another dissapointment
After some time your blind passenger is back...
Another dissapointment
The old friend comes knocking on your door

Psychotherapy, anti-depressives?
Sleeping pills or tranquilizers!?

You've got the same symptoms but they don't treat the
cause
Are they helping you or just earning some more money?
Think about these words!

The change! Your life!
The change! Your desires!
The change! Your way!

The situation today makes sick people out of us, we are all psychical patients produced by capitalism. You wake up in the morning and go to work where you put up with conditions, depending of the job, but the profit is always more important than you. You come home and turn on the TV, you eat something and rest for the next day. That's the story of your life. How to stay normal? How to feel there is some sense in your life if you are just a little piece in capitalist profit-making machinery, and you're working just to feed yourself and your family? You must consider your working for the upper class and their profit most of the time and not to satisfy your own needs and those of your children. To work is what makes us but they made it pain and suffering. No doctor will tell you «My friend, we are living in the sick world where you are just a raw material and the only cure is a radical social change.» No way, you will get your psychoterapy or some medicine for your physical problems and you'll pay for that. Now think, anyway you turn they are earning over your back.

So... self-education, organization, emancipation...

05. WE'LL BE MILLIONS

All my being has one goal
As much I lose, I don't give up
Hoping, fighting, I don't give up!

Defined destiny is horrifying me
I'm nobody's slave, or just a function in the system!

Brought to nothing, human soul
Is struggling in the mud of betrayal!

Whole human race playing the game of the men in power
Just a capitalist lever!

It's eating me from the inside, bites me to the bone,
Their malice, their greed!

All my being seeks to attain one goal
Radical socialist revolution!

It started in our minds!
It started in our thoughts!

06. PROBLEMATIC SLAVES

You are slave! I'm slave!
No doubt! No doubt!

Where the freeminded people like
You and me then come from?

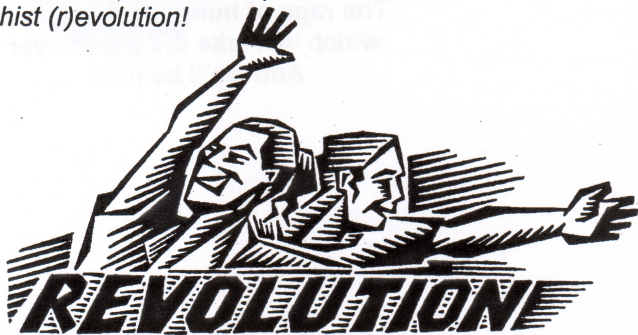

It's simple! They are not allmighty
They will fall in rage, in rage of human conscience!

The rage of human conscience
which will take the world over
And we'll be free!

What's the difference between anarchist (r)evolution and all the others? We don't want to gain authority and power, we don't want dictatorship, we don't want state and bureaucracy which replaced human relations, we don't want old or new leaders and preachers. We don't want nationalism, clericalism, sexism, racism and all those xenophobic and twisted ideas which drag people from the source of problem and offer them rage and hate instead of healthy reason and freedom. We don't want private ownership, but personal and social which can be freely used but not owned. We don't want love restrained by laws and tradition, we don't want institution using force, we don't want the situation of the oppressed and those who exploit them, we don't want hierarchy and irrational authority. We want to enjoy fruits of our own work, we want equality, solidarity and anti-authoritative relations. We want children to be taken care of as well as of all those who can't take care of themselves. We want equal level of education for everyone. We want love instead of hate, solidarity and cooperation instead of competition, freedom instead of pressure and indoctrination. We want direct democracy, free society with no classes. We want free associations of workers, societies, communities and people. Self-governing, decentralized, bioregional systems and not artificial national borders. We want free agreements and deals instead of laws. We want the right of every human and society on its self-defiance.

Anarchist (r)evolution is not going to happen overnight, it's long and permanent process of human intercourse. It doesn't mean death for those who think different, upper classes and fascists, it means death for exploitation and tyrant relations. The social revolution where the enemy is capitalism and state as well as ignorance and prejudice.

Death to lies and life to freedom in its purest form.
Long live anarchist (r)evolution!

07. NOTHING TO LOSE

**Your apathy creates this awful system!
What's the excuse for your passivity?!**

**What frightens you
So you just humbly listen?
And take their shit!**

Served to you!

**You've got nothing to lose
Except your own chains!!!**

Only when you realize that everything you own and do is pretty absurd you will see your euphoric behaviour has nothing to do with reality, it's an illusion. Your power, your possessions and everything else you own is worthless if you don't control yourself and if your mind is poisoned. It's not worth if we live like we are hypnotized, marching towards our own death, working for others, buying things we don't need, appreciating nothing but power and profit. Stomping any hope and not concerning the pain of the nature, animals and people. We are suffocating in cruelty blinded by money, seeing no one but ourselves. Lie, deception, delusion.

This song is for all the tired workers who don't have the strenght to fight for their rights, for all the people who joined the majority just because they are frightened, who let go even they know that's not the right thing to do. It's for the undecided and frightened people who think they are alone in this shit, for the parents who create generations and generations of children uninterested in the world they are living in, to those who staggered and looking for comfort in addiction. It's for the students who don't care about their education, for teachers who teach kids what to think instead of how to think, for religious ones who believe just because they are frightened, for those who hate because they are scared of something different and new, for myself because I'm losing strenght and will and sometimes not finding support and warm words, and to you who is thinking about giving up everything because it's hard and takes time...

Decisiveness, patience and self-discipline.

Sincerity to others and, more important, to yourself.

08. YOU HOLD THE KEYS OF YOUR CHAINS

We are not the goods, nor wage earners
We are not merchandise sold in stores
We can't be bought or rented
'Cause we are already owned!

Digital video recordings?
Sick of watching actors,
We want our own adventures!
Political parties and laws?
We want to experience our own strenght
We want to represent ourselves!

You can tell we need more education
We will laugh at that
You say there is no place for us on the top
Enough place for all of us
In any case we ask ourselves
Do we want to be there anyway?!

Why don't you say we need better working ethics,
Carreer consultation, psychiatric care
Medical prescriptions, maybe longer vacations?

Now we know, we are not the problem!

We had enough of symptoms curing,
And blaming victims,
You always tell us,
It's the end of the world if we lose jobs!

We are not the goods, nor wage earners
We are not merchandise sold in stores
We can't be bought or rented
'Cause we are already owned!

Imagine the world where you would have the ability to become aware of yourself and the world itself. I have the feeling that we have forgotten the Earth is not here for us, we are here thanks to her. Evolution is what enabled us to think, conclude, question ourselves, to depend on our own ratio and have the freedom of choice. And what have we created? The worst imaginable systems: slavery and feudalism, authoritative socialism, state communism, capitalism and neo-liberalism.

Capitalism forces people to think only of their own interest and to make decisions that way. That makes us non-humans and all our values like empathy, solidarity and sacrifice do not exist anymore because everything evolves around profit making or, in the case of the working class, how to survive. There are all sorts of individual conflicts which in the end lead to the worst and the most horrible of them all – the war. There is no end to the horrors people are prepared to do for their own interests, capitalist interests and those of the ruling class as well as for those of us, little people who just try to live through the day.

In the end there is only one question: what still makes us humans? What's the cause of our apathy while we watch the profit and interest rape our mother Earth and kill our sisters and brothers, children and their parents...

What still makes us humans?

09. STATE SAFETY VALVE

Ambitious young lawyers,
enthusiastic communists
People who think it's possible
To change things from the inside!
To change things from the inside?

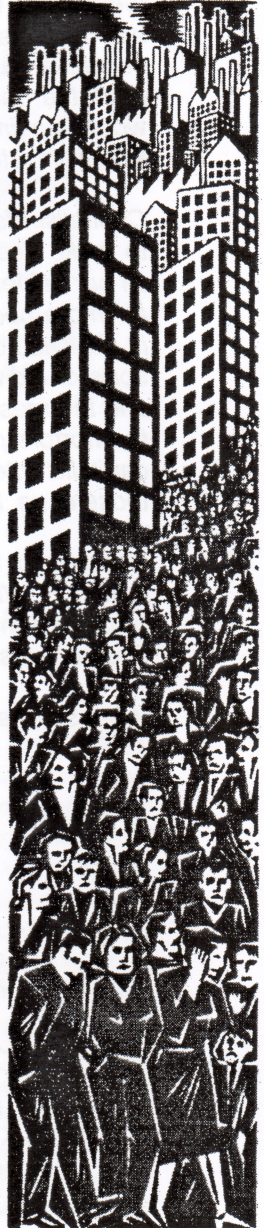

If there was a chance
of changing the system
People would take it long time ago
It's just their safety valve!
It's just their safety valve!

For releasing pressure
When people get too aware!

Your efforts and your talent support
the world order
The world order you are against

Let's extend the borders of freedom
and friendship,
Of the place we fell good in!

Let's give an example
of how to behave
Equality
Let's give an example of how to behave
Friendship, solidarity, equality
Equality!

It's easy to explain really, the state/the system has its safety valves which are activated when people try to make changes. I tell you, those are very appropriate procedures meant for people who try to change the system from the inside. For future lawyers, judges, policemen. The state can not be changed because it doesn't allow people to use its methods and laws to change things. There is wide net of interests and connections. Do you really think that the state is just an institution? There is a model of behaviour, the model which keeps the system alive. You and me are those who must change that model, equality instead of hierarchy, solidarity instead of market competition, searching for your own dreams instead of just fitting in society standards, friendship instead of intolerance, direct democracy instead of apathy and allowing others to make decisions for us. When we accept their ways, we lose immediately, because our values can't compare with theirs. I suggest to change their ways with ours by expanding the space where we can act and behave as equal human beings. Acting from the inside in the name of change? No.

«Our personal relations with people reproduce the same hierarchy we are fighting against in the society. We are not going to change anything until we create new ways of living and relating with others, new values which reflect in the way we treat each other.»

To act from the inside? No!

Our experience and what we learned from the past makes us agree the system doesn't need repair or to be reformed, it needs basic change (things went wrong long time ago). To act inside in the name of change? No.

10. MISANTHROPY

**The whole world is prison, prison with no bars!
Wherever I go I feel intolerable pressure**

**The feeling of slavery although you are «free»
The feeling of hunger although you are fed!**

**The whole world is prison, prison with no bars!
The prison reflecting human face!**

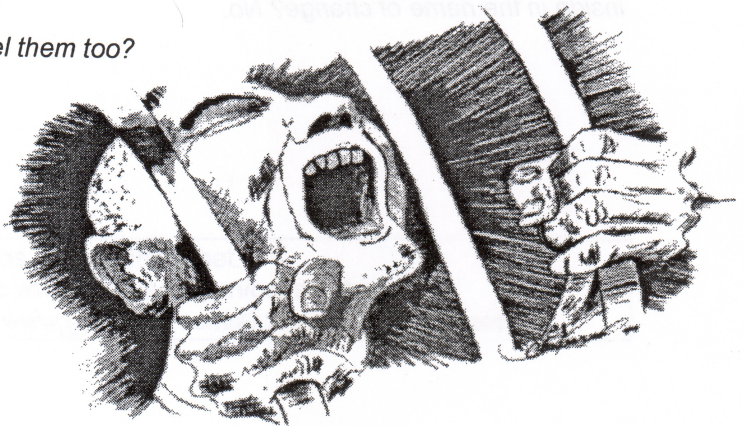

For the first time I see I'm chained, my body is under pressure. My thoughts are restrained, I don't see clearly what I want and feel. The only thing I know for sure is I'm imprisoned... Regulated, beaten down, controlled, followed, surveilled, registered, counted, measured, exploited, trained and robbed. It's all in the name of the plan, bloody class plan, in order to enable elite minority to live their superb lives, to control world income, information and resources and, in that way, the world itself.

*The first step has been made
I'm aware...*

Now that I see, now that I'm aware, I can close my eyes and still feel. I feel them inside me, making holes in my mind. Their rage as reaction on my awareness. I know I'm not alone and they know that.

*The end is near, their of ours.
There is no other way out.
'Cause I feel them...*

Do you feel them too?

For the end:

Your free will is your autonomy, you are creative, active and responsible being. What makes you different from the rest is your ability to choose to be free or not. What do you choose for yourself? Creative work or working for a wage and serving someone or something? Freedom and responsibility or avoiding critical thinking and passively accepting present situation? Running away from freedom means your own ruin, your irresponsibility and letting all your life decisions to someone else is road to alienation from yourself and your own creativity, alienation from fellow men and, in the end, from the nature itself.

Human is human while he's free!
And what are you today?!

Capitalist raw material in social class divided world, where you are just an instrument, an object, number on the paper, statistics!

Do not try to fool yourself or others by thinking there is no alternative for today's situation and that it has to be like it is. You are your own creation, no god or state can refute that without you willingly join your own destruction and alienation. Yes, your responsibility is big and it's stupid to close eyes and not see that...

What do you choose for yourself today?

KONSTANTNI RAT

We decided to call this unit «The Constant War».
Why? Fascination with violence and weapons?
No way.

«And the last fight let us face
The Internationale unites the human race.»

«The Constant War» because we think there is no end in fighting prejudice and ignorance. The demise of capitalism and state won't be the last battle. It will be the first one. Everything can be better and anything not good enough must be criticized. That's why «The Constant War». There will always be borders you must fight against, prejudices to question and ignorance to illuminate...

That's why, let's turn off the dark!
